# Kansas Administrative Regulations Economic Impact Statement (EIS)

Kansas Department of Wildlife and Parks  
Agency

Kurtis Wiard  
Agency Contact

785-296-2281  
Contact Phone Number

115-2-1  
K.A.R. Number(s)

Permanent     Temporary

Is/Are the proposed rule(s) and regulation(s) mandated by the federal government as a requirement for participating in or implementing a federally subsidized or assisted program?

Yes    If yes, continue to fill out the remaining form to be included with the regulation packet submitted in the review process to the Department of Administration and the Attorney General. Budget approval is not required; however, the Division of the Budget will require submission of a copy of the EIS at the end of the review process.

No    If no, do the total annual implementation and compliance costs for the proposed rule(s) and regulation(s), calculated from the effective date of the rule(s) and regulation(s), exceed \$1.0 million or more in implementation and compliance costs that are reasonably expected to be incurred by or passed along to businesses, local governmental units and individuals as a result of the proposed rule and regulation over the initial five-year period following adoption of such rule(s) and regulation(s) (as calculated in Section III, F)?

Yes    If “Yes,” then the agency shall not adopt the rule(s) and regulation(s) until the rule(s) and regulation(s) has been ratified by the Legislature with a bill, unless the proposed rule(s) and regulation(s) are: 1) mandated by the federal government as a requirement for participating in or implementing a federally subsidized or assisted program, as described in K.S.A. 77-416(b)(1)(B), and amendments thereto; 2) temporary rule(s) and regulation(s) adopted pursuant to K.S.A. 77-722, and amendments thereto; or 3) rules and regulations adopted pursuant to K.S.A. 2-3710 (Kansas Agricultural Remediation Board). Continue to fill out the remaining EIS form to be included with the regulation packet in the review process to the Department of Administration and the Attorney General. The submitted EIS will be independently analyzed by the Division of the Budget for approval.

No    If no, continue to fill out the remaining form to be included with the regulation packet submitted in the review process to the Department of Administration and the Attorney General. The submitted EIS will be analyzed by the Division of the Budget for approval.

MAR 10 2026

DIVISION OF THE BUDGET

## Section I

Analysis, brief description, and cost and benefit quantification of the proposed rule(s) and regulation(s). If the approach chosen by the Kansas agency to address the policy issue is different from that utilized by agencies of contiguous states or of the federal government, the economic impact statement shall include an explanation of why the Kansas agency's rule and regulation differs.

The key changes to this proposed regulation establish two fees for resident and nonresident night-vision coyote hunting permits. The current cost of a night-vision coyote hunting permit for both residents and nonresidents is \$2.50, which is simply a processing fee. The new fee will be \$27.50 for a resident night-vision coyote hunting permit (an increase of \$25) and \$52.50 for a non-resident night-vision coyote hunting permit (an increase of \$50). The \$2.50 permit fee has been in place since 2021, which was the first year night-vision coyote hunting was authorized in Kansas.

If KDWP does not implement this regulation change, it will be unable to cover the law enforcement costs associated with implementing the new night-vision hunting season, which is especially important since the new season now takes place in the midst of three different deer rifle seasons where poaching concerns are heightened. In addition, KDWP needs the additional revenue to cover the costs of researching and monitoring coyote populations and their effects on the on other wildlife populations, such as deer and turkeys.

Approaches to night hunting of coyotes vary between contiguous states. Oklahoma does not have a separate night-vision coyote season, but coyotes can be hunted year-round with night-vision equipment with a free depredation permit. Nebraska allows residents and nonresidents to use night vision and thermal equipment to hunt coyotes, but nonresidents are required to have a small-game permit and are limited to 1,000 coyotes. Colorado does not have a separate coyote night-vision season; individuals can hunt coyotes year-round with artificial light and night-vision or thermal equipment, but specific regulations and permits are required, and use is prohibited during conflicts with big game seasons. Missouri has a specific period when night-vision and thermal equipment can be used for hunting coyotes: January 1 to September 30, excluding the spring turkey season. During this designated season, hunters can legally use night vision, infrared, or thermal imagery equipment, along with artificial lights, in conjunction with other legal hunting methods to pursue and take coyotes. Missouri does not charge a specific fee for using this equipment.

This regulation also establishes fees associated with duplicate boat registrations decals. The proposed change to this regulation would increase the cost from \$0 to \$10. By implementing this regulation change it would help cover the cost of boat registration decals, staff time, envelopes and postage. Missouri, Oklahoma, and Colorado charge small fees for duplicate boat registration decals.

## Section II

Explain whether the proposed rule and regulation is mandated by federal law as a requirement for participating in or implementing a federally subsidized or assisted program and whether the proposed rules and regulations exceed the requirements of applicable federal law.

The proposed regulation change is not mandated by federal law.

### Section III

Agency analysis specifically addressing the following:

- A. The extent to which the rule(s) and regulation(s) will enhance or restrict business activities and growth;

The regulation changes will have no impact on business activities and growth.

- B. The economic effect, including a detailed quantification of implementation and compliance costs, on the specific businesses, sectors, public utility ratepayers, individuals, and local governments that will be affected by the proposed rule(s) and regulation(s) and on the state economy as a whole;

This regulation change will primarily impact those individuals who choose to hunt coyotes with night-vision equipment. Over the last five years, an average of 4,862 residents and 1,051 nonresidents—or 5,913 total individuals—purchased a night-vision equipment permit. The annual direct compliance cost for residents will be \$121,550 per year ( $\$25 \times 4,862$ ). The annual direct compliance cost for nonresidents will be \$52,550 per year ( $\$50 \times 1,051$ ). These two amounts total \$174,100.

The regulation will also impose a \$10 duplicate vessel registration decal fee. An average of 1,000 individuals request duplicate vessel registration decals per year. Thus, the annual direct compliance cost for this fee will be \$10,000 per year.

The total compliance costs of imposing all fees will be \$184,100 per year, or \$920,500 over the initial five-year period following adoption of the regulation.

- C. Businesses that would be directly affected by the proposed rule(s) and regulation(s);

Businesses will not be directly affected by the proposed regulation changes.

- D. Benefits of the proposed rule(s) and regulation(s) compared to the costs;

The increase in revenue generated through fees will enable the Department to research, monitor, and survey the impact of the newly expanded night-vision coyote hunting season on coyote populations or their prey species, such as deer and turkeys. The revenue increase will also aid in law enforcement, which must now monitor hunters with more technologically advanced equipment and methods. Finally, the regulation change increasing the duplicate boat registration decals will enable the Department to cover its costs to reprint the decals, as well as cover staff time and postage in fulfilling these requests.

In all, the benefits to Kansas wildlife and operational fiscal responsibility outweigh the costs imposed by the new fees.

- E. Measures taken by the agency to minimize the cost and impact of the proposed rule(s) and regulation(s) on business and economic development within the State of Kansas, local government, and individuals;

The proposed regulation changes will not hinder business and economic development. Instead, the increase in fee for night-vision coyote hunting accompanies an expanded night-vision season, which enhances business activity involving night-vision hunting equipment.

DOB APPROVAL STAMP

**APPROVED**

MAR 10 2026

DIVISION OF THE BUDGET

F. An estimate of the total annual implementation and compliance costs that are reasonably expected to be incurred by or passed along to businesses, local governments, or individuals. *Note: Do not account for any actual or estimated cost savings that may be realized. Implementation and compliance costs determined shall be those additional costs reasonably expected to be incurred and shall be separately identified for the affected businesses, local governmental units, and individuals.*

Costs to Affected Businesses – \$0

Costs to Local Governmental Units – \$0

Costs to Individuals – \$184,100

**Total Annual Costs – \$184,100**

(sum of above amounts)

Give a detailed statement of the data and methodology used in estimating the above cost estimate.

Over the last five years, an average of 4,862 residents and 1,051 nonresidents—or 5,913 total individuals—purchased a night-vision equipment permit. The annual direct compliance cost for residents will be \$121,550 per year (\$25 x 4,862). The annual direct compliance cost for nonresidents will be \$52,550 per year (\$50 x 1,051). These two amounts total \$174,100. In addition, an average of 1,000 individuals request duplicate vessel registration decals per year. At a fee of \$10, the annual direct compliance cost for this fee will be \$10,000 per year. The total compliance costs of imposing all fees will be \$184,100 per year.

- Yes     If the total implementation and compliance costs exceed \$1.0 million or more in implementation and compliance costs over the initial five-year period following adoption of such rule(s) and regulation(s) that are reasonably expected to be incurred by or passed along to businesses, local governmental units and individuals as a result of the proposed rule and regulation, did the agency hold a public hearing to find that the estimated costs have been accurately determined and are necessary for achieving legislative intent? If applicable, document when the public hearing was held, those in attendance, and any pertinent information from the hearing.
- No
- Not Applicable

Provide an estimate to any changes in aggregate state revenues and expenditures for the implementation of the proposed rule(s) and regulation(s), for both the current fiscal year and next fiscal year.

The amended regulation will likely increase revenues to the Wildlife Fee Fund by approximately \$174,100 annually through the night-vision permit fee increases and \$10,000 for the duplicate boat registration decal fee increase for a total increase in revenue of \$184,100. No expenditures are currently planned.

Provide an estimate of any immediate or long-range economic impact of the proposed rule(s) and regulation(s) on any individual(s), small employers, and the general public. If no dollar estimate can be given for any individual(s), small employers, and the general public, give specific reasons why no estimate is possible.

As previously detailed, the immediate and long-range impact on individuals is \$184,100 per year.

DOB APPROVAL STAMP

**APPROVED**

**MAR 10 2026**

DIVISION OF THE BUDGET

G. If the proposed rule(s) and regulation(s) increases or decreases revenues of cities, counties or school districts, or imposes functions or responsibilities on cities, counties or school districts that will increase expenditures or fiscal liability, describe how the state agency consulted with the League of Kansas Municipalities, Kansas Association of Counties, and/or the Kansas Association of School Boards.

The proposed regulation will not increase or decrease revenues of cities, counties, or school districts. Nor will it impose functions or responsibilities on cities, counties, or school districts.

H. Describe how the agency consulted and solicited information from businesses, business associations, local governmental units, state agencies, or institutions and members of the public that may be affected by the proposed rule(s) and regulation(s) or may provide relevant information.

The Department publicized and discussed the expanded night-vision coyote hunting season at six consecutive Wildlife and Parks Commission Meetings:

- October 3, 2024 (Bonner Springs)
- November 21, 2024 (Wichita)
- January 30, 2025 (Manhattan)
- March 27, 2025 (Topeka)
- April 26, 2025 (Fall River)

Following expansion of the night-vision coyote hunting season, the Department publicized and discussed the increased fees at two consecutive Wildlife and Parks Commission Meetings:

- November 20, 2025 (Great Bend)
- January 8, 2026 (Council Grove)

Since the proposed changes to the regulation impose costs on only individuals, businesses, business associations, local governmental units, and other state agencies were not consulted.

#### Section IV

Does the Economic Impact Statement involve any environmental rule(s) and regulation(s)?

- Yes If yes, complete the remainder of Section IV.  
 No If no, skip the remainder of Section IV.

A. Describe the capital and annual costs of compliance with the proposed rule(s) and regulation(s), and the individuals or entities who would bear the costs.

[Click here to enter agency response.](#)

B. Describe the initial and annual costs of implementing and enforcing the proposed rule(s) and regulation(s), including the estimated amount of paperwork, and the state agencies, other governmental agencies, or other individuals who will bear the costs.

[Click here to enter agency response.](#)

C. Describe the costs that would likely accrue if the proposed rule(s) and regulation(s) are not adopted, the individuals or entities who will bear the costs and who will be affected by the failure to adopt the rule(s) and regulation(s).

[Click here to enter agency response.](#)

D. Provide a detailed statement of the data and methodology used in estimating the costs used.

[Click here to enter agency response.](#)
